1. Identification

- **Product identifier**
  - **Product name:** Ferro Cerium Lighter Flints

- **Relevant identified uses of the substance or mixture and uses advised against**
  - **Application of the substance / the preparation:**
    Raw material for industrial applications.
    Lighter Flints

- **Details of the supplier of the safety data sheet**
  - **Manufacturer:**
    Treibacher Industrie AG
    Auer von Welsbachstraße 1
    9330 Althofen
    Austria
    Telefon: +43 (0) 4262 505-0
    Fax: +43 (0) 4262 505-2005
    www.treibacher.com
  - **Supplier:**
    G. C. Fuller Mfg. Co., Inc.
    1 Shurlite Drive
    Lawrenceburg, IN 47025
    P: 812-539-2831
    F: 812-539-4029
    www.shurlite.com
  - **Information department:** custserv@shurlite.com
  - **Emergency telephone number:**
    +43 (0) 4262 505-0 (7:00 - 16:00) - Central European Time (CET)
    +43 (0) 1 406 4343-0 (Austrian Poison Information Centre)
    CHEMTREC - USA / CA (24-h emergency number): +1 800 424 9300

2. Hazard(s) Identification

- **Classification of the substance or mixture**
The product is not classified according to the Globally Harmonized System (GHS).

- **Label elements**
  - **GHS label elements** Void
  - **Hazard pictograms** Void
  - **Signal word** Void
  - **Hazard statements** Void
  - **Classification system:**
  - **NFPA ratings (scale 0 - 4)**
    - Health = 0
    - Fire = 0
    - Reactivity = 0
· HMIS-ratings (scale 0 - 4)

[Health: 0, Fire: 0, Reactivity: 0]

· Other hazards
  Lighter flints in the delivered form (cylindrical pieces) have no special risk.
  Moderate risk of explosions of fine material.
  Dust can have irritant effects to eyes and respiratory organs.
  Inappropriate use of lighter flints (e.g. use for sparking effects) can lead to fire and burn injuries.

· Results of PBT and vPvB assessment
  · PBT: Not applicable.
  · vPvB: Not applicable.

3. Composition/information on ingredients

· Chemical characterization: Substances
  Ferro Cerium
  Lighter Flints

Product name: Ferro Cerium
Lighter Flints
· Chemical characterization: Mixtures
· Components:

· Additional information:
  Rare Earth Mischmetal contains:
  Cerium (EINECS: 231-154-9; CAS: 7440-45-1)
  Lanthanum (EINECS: 231-099-0; CAS: 7439-91-0)

4. First-aid measures

· Description of first aid measures
  · After inhalation:
  Supply fresh air.
  Seek medical treatment in case of complaints.

  · After skin contact:
  Immediately wash with water and soap and rinse thoroughly.
  If skin irritation continues, consult a doctor.

  · After eye contact:
  Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

  · After swallowing: Drink copious amounts of water and provide fresh air. Immediately call a doctor.
· Most important symptoms and effects, both acute and delayed No further relevant information available.
· Information for doctor: Treat symptomatically.
· Indication of any immediate medical attention and special treatment needed No further relevant information available.

5. Fire-fighting measures

· Extinguishing media
  · Suitable extinguishing agents:
    - Dry sand
    - Fire-extinguishing powder
    - Special powder for metal fires. Do not use water.
  · For safety reasons unsuitable extinguishing agents:
    - Water
    - Carbon dioxide
    - Halogen extinguisher
· Special hazards arising from the substance or mixture
  In case of fire, the following can be released:
  - Toxic metal oxide smoke
· Advice for firefighters
  · Protective equipment:
    - Wear self-contained respiratory protective device.
    - Wear fully protective suit.
  · Additional information:
    - Cover all exposed surfaces with sand, salt or metal-extinguisher powder. Material should not be mixed until the material has been allowed to cool down.
    - Dispose of fire debris and contaminated firefighting water in accordance with official regulations.

6. Accidental release measures

· Personal precautions, protective equipment and emergency procedures
  - Avoid formation of dust.
  - Keep away from ignition sources
· Environmental precautions: No special measures required.
· Methods and material for containment and cleaning up:
  - Pick up mechanically.
  - Send for recovery or disposal in suitable receptacles.
  - Use non-sparking tools, because the rubbing of the product with metallic objects may cause a formation of sparks.
· Reference to other sections
  - See Section 7 for information on safe handling.
  - See Section 8 for information on personal protection equipment.
  - See Section 13 for disposal information.

7. Handling and storage

· Precautions for safe handling
  - Prevent formation of dust.
  - When working with powdered material it is recommended to use a dry inert gas atmosphere and a local explosion proof exhaust system.
· Information about protection against explosions and fires:
  - Keep ignition sources away - Do not smoke.
  - Keep away from oxidizing agents.
  - Finely distributed particles may be flammable or explosive.
· Conditions for safe storage, including any incompatibilities
Storage:

- **Requirements to be met by storerooms and receptacles:**
  - Keep receptacle tightly sealed.
  - Store in dry conditions.
- **Information about storage in one common storage facility:**
  - Store away from flammable substances.
  - Do not store together with acids.
  - Store away from oxidizing agents.
  - Store away from water.
- **Further information about storage conditions:**
  - Protect from contamination.
  - Never store lighter flints uncontrolled.
- **Specific end use(s)** No further relevant information available.

8. Exposure controls/personal protection

- **Additional information about design of technical systems:**
  - Ensure good ventilation/exhaustion at the workplace.
- **Control parameters**
  - **Components with limit values that require monitoring at the workplace:**
    - The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- **DNELs**

Test material: Dicerium tricarbonate
Grutzner I (2006)
0.6 mg/l (Freshwater organisms)
Extrapolation method: assessment factor

60.9 µg/l (Marine organisms)
Extrapolation method: assessment factor

7439-91-0 Lanthanum
PNEC: - (-)
No hazard identified

Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

Do not eat, drink, smoke or sniff while working.
Wash hands before breaks and at the end of work.

Breathing equipment: Not necessary if room is well-ventilated.

Protection of hands:
Protective gloves

Material of gloves Wear gloves for the protection against mechanical hazards according to EN 388.

Penetration time of glove material
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:
Safety glasses

Body protection: Protective work clothing

9. Physical and chemical properties

Information on basic physical and chemical properties
General Information
Appearance:
Form: Solid, Lumpy
Color: Grey
-Different according to coloring

Odor: Odorless
Odor threshold: Not applicable
pH-value: Not applicable
Melting point/Melting range: ca. 700 °C (ca. 1292 °F)
Boiling point/Boiling range: ca. 1100 °C (ca. 2012 °F)
Flash point: Not applicable
Flammability (solid, gaseous): Flammable.
Ignition temperature: Solid material (flints): 400 °C (752°F)
Powder: 195 - 280 °C (338°F – 536°F)
Auto igniting: Product is not self-igniting.
Danger of explosion: Lighter flints: not applicable.
Powder: not determined.

Explosion limits:
Lower: Not determined
Upper: Not determined
Oxidizing properties Lumpy: none
In form of powder: yes.

Density: 6.5 g/cm³ (54.243 lbs/gal)
Solubility in / Miscibility with
Water: Insoluble.
- Partition coefficient (n-octanol/water): Not determined
- Viscosity:
  - Dynamic: Not determined
  - Kinematic: Not determined
- Other information: No further relevant information available.

10. Stability and reactivity

- Reactivity
- Chemical stability
- Thermal decomposition / conditions to be avoided: Lumpy material is stable against corrosion.
- Possibility of hazardous reactions
  - Reacts with strong oxidizing agents.
  - Reacts with water and acids.
- Conditions to avoid: No further relevant information available.
- Incompatible materials:
  - Keep away from water.
  - Keep away from oxidising agents and acidic substances.
- Hazardous decomposition products: No dangerous decomposition products known.
- Additional information:
  - If ferro mischmetal gets inadvertently wet, put it on an absorptive material and dry it with warm air (not to hot).

11. Toxicological information

- Information on toxicological effects
- Acute toxicity:
  - LD/LC50 values that are relevant for classification:

Study technically not feasible

- **Persistence and degradability**: Not determined
- **Bioaccumulative potential**: Not determined
- **Mobility in soil**: No further relevant information available.
- **Additional ecological information:**
  - **AOX-indication**: The product does not contain organically bounded halogens (AOX-free).
  - **General notes**: Generally not hazardous for water
  - **Results of PBT and vPvB assessment**
    - **PBT**: Not applicable.
    - **vPvB**: Not applicable.
  - **Other adverse effects**: No further relevant information available.

### 13. Disposal considerations

- **Waste treatment methods**
  - **Recommendation**: Ferro Mischmetal tends to oxidize if they are stored for a longer time. The formed oxides are mostly available in form of powder. Powder and swarf of Mischmetal have pyrophoric properties and spontaneous ignition is possible. Put small portions of about 100 g in 1 l saltwater (5 - 15 %) in a metallic vessel and place it outside buildings. Wait till the reaction process (Hydrogen development) is finished, which may take a few days. The remaining sludge can be disposed riskless. In case of doubt contact manufacturer or supplier. Disposal must be made according to official regulations.
  - **Waste disposal key**: 51310 (ÖNORM S 2100)
  - **European waste catalogue**: 06 03 16
  - **Uncleaned packagings**
    - **Recommendation**: Packaging that cannot be cleansed are to be disposed of in the same manner as the product.
    - Disposal must be made according to official regulations.

### 14. Transport information

- **UN-Number**
- **DOT, ADR, ADN, IMDG, IATA Void**
- **UN proper shipping name**
- **DOT, ADR, ADN, IMDG, IATA Void**
- **Transport hazard class(es)**
- **DOT, ADR, ADN, IMDG, IATA**
  - **Class**: Void
  - **Packing group**: Void
- **DOT, ADR, IMDG, IATA Void**
- **Environmental hazards**: Not applicable
- **Special precautions for user**: Not applicable.
- **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**: Not applicable.
- **Transport/Additional information**: Not dangerous according to the above specifications.
- **IATA**: No dangerous good according to "IATA Dangerous Goods Regulation (DGR) 55th Edition 2014"
- **UN "Model Regulation"**: -

### 15. Regulatory information
- **REACH-Registration number:**
  - Cerium: 01-2119480148-35-0000
  - Lanthanum: 01-2119971281-39-0000
  - Iron: 01-2119462838-24-0360

- **Safety, health and environmental regulations/legislation specific for the substance or mixture**
  - **Sara**
    - **Section 302 (extremely hazardous substances):** None of the ingredients is listed.
    - **Section 313 (Specific toxic chemical listings):** None of the ingredients is listed.
  - **TSCA (Toxic Substances Control Act):** All ingredients are listed.
  - **Proposition 65**
    - **Chemicals known to cause cancer:** None of the ingredients is listed.
  - **Chemicals known to cause reproductive toxicity for females:** None of the ingredients is listed.
  - **Chemicals known to cause reproductive toxicity for males:** None of the ingredients is listed.
  - **Chemicals known to cause developmental toxicity:** None of the ingredients is listed.
  - **Cancerogenity categories**
    - **EPA (Environmental Protection Agency)** None of the ingredients is listed.
    - **TLV (Threshold Limit Value established by ACGIH)** None of the ingredients is listed.
    - **MAK (German Maximum Workplace Concentration)** None of the ingredients is listed.
    - **NIOSH-Ca (National Institute for Occupational Safety and Health)** None of the ingredients is listed.
    - **OSHA-Ca (Occupational Safety & Health Administration)** None of the ingredients is listed.
  - **Canadian substance listings:**
    - **Canadian Domestic Substances List (DSL)** All ingredients are listed.
    - **Canadian Ingredient Disclosure list (limit 0.1%)** None of the ingredients is listed.
