</tr>
</tbody>
</table>

| 1.2. Relevant identified uses of the substance or mixture and uses advised against |  |
| Use of the substance/mixture: Industrial use. Use as directed. |

| 1.3. Details of the supplier of the safety data sheet |  |
| Praxair, Inc. |
| 10 Riverview Drive |
| Danbury, CT 06810-6268 - USA |
| T 1-800-772-9247 (1-800-PRAXAIR) - F 1-716-879-2146 |
| www.praxair.com |

| 1.4. Emergency telephone number |  |
| Emergency number: Onsite Emergency: 1-800-645-4633 |
| CHEMTREC, 24hr/day 7days/week |
| Within USA: 1-800-424-9300, Outside USA: 001-703-527-3887 |
| (collect calls accepted, Contract 17729) |

**SECTION 2: Hazard identification**

| 2.1. Classification of the substance or mixture |
| GHS-US classification: Flam. Gas 1 H220 |
| Liquefied gas - H280 |
| Aquatic Acute 3 H402 |

| 2.2. Label elements |
| GHS-US labeling |
| Hazard pictograms (GHS-US): |
| GHS02 |
| GHS04 |

| Signal word (GHS-US): DANGER |
| Hazard statements (GHS-US): |
| H220 - EXTREMELY FLAMMABLE GAS |
| H280 - CONTAINS GAS UNDER PRESSURE; MAY EXPLODE IF HEATED |
| H402 - HARMFUL TO AQUATIC LIFE |
| CGA-HG04 - MAY FORM EXPLOSIVE MIXTURES WITH AIR |
| OSHA-H01 - MAY DISPLACE OXYGEN AND CAUSE RAPID SUFFOCATION |

| Precautionary statements (GHS-US): |
| P210 - Keep away from Heat/Open flames/Sparks/Hot surfaces. - No smoking |
| P273 - Avoid release to the environment |
| P377 - Leaking gas fire: Do not extinguish, unless leak can be stopped safely |
| P381 - Eliminate all ignition sources if safe to do so |
| P501 - Dispose of contents/container in accordance with container Supplier/owner instructions |
| P271+P403 - Use and store only outdoors or in a well-ventilated place |

| 2.3. Other hazards |
| Other hazards not contributing to the: Asphyxiant in high concentrations. |

This document is only controlled while on the Praxair, Inc. website and a copy of this controlled version is available for download. Praxair cannot assure the integrity or accuracy of any version of this document after it has been downloaded or removed from our website.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

First-aid measures after inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. If breathing is difficult, trained personnel should give oxygen. Call a physician.

First-aid measures after skin contact: The liquid may cause frostbite. For exposure to liquid, immediately warm frostbite area with warm water not to exceed 105°F (41°C). Water temperature should be tolerable to normal skin. Maintain skin warming for at least 15 minutes or until normal coloring and sensation have returned to the affected area. In case of massive exposure, remove clothing while showering with warm water. Seek medical evaluation and treatment as soon as possible.

First-aid measures after eye contact: Immediately flush eyes thoroughly with water for at least 15 minutes. Hold the eyelids open and away from the eyeballs to ensure that all surfaces are flushed thoroughly. Contact an ophthalmologist immediately.

#### 4.2. Most important symptoms and effects, both acute and delayed

No additional information available

#### 4.3. Indication of any immediate medical attention and special treatment needed

Obtain medical assistance.

---

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media: Carbon dioxide, Dry chemical, Water spray or fog. Use extinguishing media appropriate for surrounding fire.

#### 5.2. Special hazards arising from the substance or mixture

- **Fire hazard**: EXTREMELY FLAMMABLE GAS.
- **Explosion hazard**: EXTREMELY FLAMMABLE GAS. Forms explosive mixtures with air and oxidizing agents.
- **Reactivity**: No reactivity hazard other than the effects described in sub-sections below.

#### 5.3. Advice for firefighters

- **Firefighting instructions**: Evacuate all personnel from the danger area. Use self-contained breathing apparatus (SCBA) and protective clothing. Immediately cool containers with water from maximum distance. Stop flow of gas if safe to do so, while continuing cooling water spray. Remove ignition sources if safe to do so. Remove containers from area of fire if safe to do so. On-site fire brigades must comply with OSHA 29 CFR 1910.156 and applicable standards under 29 CFR 1910 Subpart L—Fire Protection.

- **Protection during firefighting**: Compressed gas: asphyxiant. Suffocation hazard by lack of oxygen. DANGER! FLAMMABLE, HIGH PRESSURE GAS.

- **Special protective equipment for fire fighters**: Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.

- **Other information**: Containers are equipped with a pressure relief device. (Exceptions may exist where authorized by DOT.).
## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**General measures**

If venting or leaking gas catches fire, do not extinguish flames. Flammable vapors may spread from leak, creating an explosive reignition hazard. Vapors can be ignited by pilot lights, other flames, smoking, sparks, heaters, electrical equipment, static discharge, or other ignition sources at locations distant from product handling point. Explosive atmospheres may linger. Before entering an area, especially a confined area, check the atmosphere with an appropriate device.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Precautions for safe handling: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only non-sparking tools. Use only explosion-proof equipment.

Wear leather safety gloves and safety shoes when handling cylinders. Protect cylinders from physical damage; do not drag, roll, slide or drop. While moving cylinder, always keep in place removable valve cover. Never attempt to lift a cylinder by its cap; the cap is intended solely to protect the valve. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Never insert an object (e.g., wrench, screwdriver, pry bar) into cap openings; doing so may damage the valve and cause a leak. Use an adjustable strap wrench to remove over-tight or rusted caps. Slowly open the valve. If the valve is hard to open, discontinue use and contact your supplier. Close the container valve after each use; keep closed even when empty. Never apply flame or localized heat directly to any part of the container. High temperatures may damage the container and could cause the pressure relief device to fail prematurely, venting the container contents. For other precautions in using this product, see section 16.
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store only where temperature will not exceed 125°F (52°C). Post “No Smoking/No Open Flames” signs in storage and use areas. There must be no sources of ignition. Separate packages and protect against potential fire and/or explosion damage following appropriate codes and requirements (e.g., NFPA 30, NFPA 55, NFPA 70, and/or NFPA 221 in the U.S.) or according to requirements determined by the Authority Having Jurisdiction (AHJ). Always secure containers upright to keep them from falling or being knocked over. Install valve protection cap, if provided, firmly in place by hand when the container is not in use. Store full and empty containers separately. Use a first-in, first-out inventory system to prevent storing full containers for long periods. For other precautions in using this product, see section 16.

OTHER PRECAUTIONS FOR HANDLING, STORAGE, AND USE: When handling product under pressure, use piping and equipment adequately designed to withstand the pressures to be encountered. Never work on a pressurized system. Use a back flow preventive device in the piping. Gases can cause rapid suffocation because of oxygen deficiency; store and use with adequate ventilation. If a leak occurs, close the container valve and blow down the system in a safe and environmentally correct manner in compliance with all international, federal/national, state/provincial, and local laws; then repair the leak. Never place a container where it may become part of an electrical circuit.

7.3. Specific end use(s)

None.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>

</tbody>
</table>

8.2. Exposure controls

Appropriate engineering controls: Use an explosion-proof local exhaust system. Local exhaust and general ventilation must be adequate to meet exposure standards. MECHANICAL (GENERAL): Inadequate - Use only in a closed system. Use explosion proof equipment and lighting. Provide adequate general and local exhaust ventilation. Ensure exposure is below occupational exposure limits (where available).

Eye protection: Wear safety glasses with side shields.
Skin and body protection: Wear metatarsal shoes and work gloves for cylinder handling, and protective clothing where needed. Wear appropriate chemical gloves during cylinder changeout or wherever contact with product is possible. Select per OSHA 29 CFR 1910.132, 1910.136, and 1910.138.
EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%

Safety Data Sheet P-18-21942
Date of issue: 11/04/2016

Respiratory protection:
When workplace conditions warrant respirator use, follow a respiratory protection program that meets OSHA 29 CFR 1910.134, ANSI Z88.2, or MSHA 30 CFR 72.710 (where applicable). Use an air-supplied or air-purifying cartridge if the action level is exceeded. Ensure that the respirator has the appropriate protection factor for the exposure level. If cartridge type respirators are used, the cartridge must be appropriate for the chemical exposure. For emergencies or instances with unknown exposure levels, use a self-contained breathing apparatus (SCBA).

Thermal hazard protection:
Wear cold insulating gloves when transferring or breaking transfer connections.

SECTION 9: Physical and chemical properties

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
No additional information available

10.4. Conditions to avoid
Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
10.5. Incompatible materials
No additional information available

10.6. Hazardous decomposition products
No additional information available

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Not classified

Propylene (115-07-1)
- LC50 inhalation rat (mg/l) 658 mg/l/4h
- ATE US (vapors) 658.000 mg/l/4h
- ATE US (dust, mist) 658.000 mg/l/4h

Skin corrosion/irritation: Not classified
pH: Not applicable.

Serious eye damage/irritation: Not classified
pH: Not applicable.

Respiratory or skin sensitization: Not classified

Germ cell mutagenicity: Not classified

Carcinogenicity: Not classified

Ethylene (74-85-1)
- IARC group 3 - Not classifiable

Propylene (115-07-1)
- IARC group 3 - Not classifiable

Reproductive toxicity: Not classified
Specific target organ toxicity (single exposure): Not classified
Specific target organ toxicity (repeated exposure): Not classified
Aspiration hazard: Not classified

SECTION 12: Ecological information

12.1. Toxicity
No additional information available

12.2. Persistence and degradability

EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%
Persistance and degradability No ecological damage caused by this product.

Argon (7440-37-1)
Persistance and degradability No ecological damage caused by this product.

Ethylene (74-85-1)
Persistance and degradability The substance is biodegradable. Unlikely to persist.

Propylene (115-07-1)
Persistance and degradability The substance is biodegradable. Unlikely to persist.

12.3. Bioaccumulative potential

EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%
Log Pow Not applicable.
Log Kow Not applicable.
EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%

Bioaccumulative potential
No ecological damage caused by this product.

Argon (7440-37-1)
Log Pow
Not applicable.
Log Kow
Not applicable.
Bioaccumulative potential
No ecological damage caused by this product.

Ethylene (74-85-1)
BCF fish 1
4 - 4.6
Log Pow
1.13
Bioaccumulative potential
Not expected to bioaccumulate due to the low log Kow (log Kow < 4). Refer to section 9.

Propylene (115-07-1)
Log Kow
Not applicable.
Bioaccumulative potential
Not expected to bioaccumulate due to the low log Kow (log Kow < 4). Refer to section 9.

12.4. Mobility in soil

EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%
Mobility in soil
No data available.

Argon (7440-37-1)
Mobility in soil
No data available.
Ecology - soil
No ecological damage caused by this product.

Ethylene (74-85-1)
Ecology - soil
Because of its high volatility, the product is unlikely to cause ground or water pollution.

Propylene (115-07-1)
Mobility in soil
No data available.
Ecology - soil
Because of its high volatility, the product is unlikely to cause ground or water pollution.

12.5. Other adverse effects

Effect on ozone layer
None

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations
Dispose of contents/container in accordance with local/regional/national/international regulations. Contact supplier for any special requirements.

SECTION 14: Transport information

In accordance with DOT
Transport document description
UN3161 Liquefied gas, flammable, n.o.s., 2.1
UN-No.(DOT)
UN3161
Proper Shipping Name (DOT)
Liquefied gas, flammable, n.o.s.
Hazard labels (DOT)
2.1 - Flammable gas

DOT Symbols
G - Identifies proper shipping name (PSN) requiring the addition of technical name(s) in parentheses following the PSN

DOT Special Provisions (49 CFR 172.102)
T50 - When portable tank instruction T50 is referenced in Column (7) of the 172.101 Table, the applicable liquefied compressed gases are authorized to be transported in portable tanks in accordance with the requirements of 173.313 of this subchapter
Additional information

Other information: No supplementary information available.

Special transport precautions: Avoid transport on vehicles where the load space is not separated from the driver’s compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure cylinder valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

Transport by sea

UN-No. (IMDG): 3161
Proper Shipping Name (IMDG): LIQUEFIED GAS, FLAMMABLE, N.O.S.
Class (IMDG): 2.1 - Flammable gases

Air transport

UN-No. (IATA): 3161
Proper Shipping Name (IATA): LIQUEFIED GAS, FLAMMABLE, N.O.S.
Class (IATA): 2

SECTION 15: Regulatory information

15.1. US Federal regulations

Ethylene (74-85-1)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
Subject to reporting requirements of United States SARA Section 313
SARA Section 313 - Emission Reporting: 1.0 %

Propylene (115-07-1)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
Subject to reporting requirements of United States SARA Section 313
SARA Section 311/312 Hazard Classes: Immediate (acute) health hazard, Fire hazard, Sudden release of pressure hazard, Delayed (chronic) health hazard
SARA Section 313 - Emission Reporting: 1.0 %

15.2. International regulations

CANADA

Argon (7440-37-1)
Listed on the Canadian DSL (Domestic Substances List)

Ethylene (74-85-1)
Listed on the Canadian DSL (Domestic Substances List)

Propylene (115-07-1)
Listed on the Canadian DSL (Domestic Substances List)

EU-Regulations

Ethylene (74-85-1)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)
# Safety Data Sheet

**EY - Argon 0.1 ppm - 10%, Propylene 0.1 ppm - 50%**

**Date of issue: 11/04/2016**

---

### Propylene (115-07-1)

- Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

### 15.2.2. National regulations

#### Ethylene (74-85-1)

- Listed on the AICS (Australian Inventory of Chemical Substances)
- Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
- Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
- Listed on the Korean ECL (Existing Chemicals List)
- Listed on NZIoC (New Zealand Inventory of Chemicals)
- Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
- Listed on INSQ (Mexican National Inventory of Chemical Substances)
- Listed on CICR (Turkish Inventory and Control of Chemicals)

### Propylene (115-07-1)

- Listed on the AICS (Australian Inventory of Chemical Substances)
- Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
- Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
- Listed on the Korean ECL (Existing Chemicals List)
- Listed on NZIoC (New Zealand Inventory of Chemicals)
- Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
- Listed on INSQ (Mexican National Inventory of Chemical Substances)
- Listed on CICR (Turkish Inventory and Control of Chemicals)

SECTION 16: Other information

Other information:

When you mix two or more chemicals, you can create additional, unexpected hazards. Obtain and evaluate the safety information for each component before you produce the mixture. Consult an industrial hygienist or other trained person when you evaluate the end product. Before using any plastics, confirm their compatibility with this product.

Praxair asks users of this product to study this SDS and become aware of the product hazards and safety information. To promote safe use of this product, a user should (1) notify employees, agents, and contractors of the information in this SDS and of any other known product hazards and safety information, (2) furnish this information to each purchaser of the product, and (3) ask each purchaser to notify its employees and customers of the product hazards and safety information.

The opinions expressed herein are those of qualified experts within Praxair, Inc. We believe that the information contained herein is current as of the date of this Safety Data Sheet. Since the use of this information and the conditions of use are not within the control of Praxair, Inc, it is the user's obligation to determine the conditions of safe use of the product.

Praxair SDSs are furnished on sale or delivery by Praxair or the independent distributors and suppliers who package and sell our products. To obtain current SDSs for these products, contact your Praxair sales representative, local distributor, or supplier, or download from www.praxair.com. If you have questions regarding Praxair SDSs, would like the document number and date of the latest SDS, or would like the names of the Praxair suppliers in your area, phone or write the Praxair Call Center (Phone: 1-800-PRAXAIR/1-800-772-9247; Address: Praxair Call Center, Praxair, Inc, P.O. Box 44, Tonawanda, NY 14151-0044).
