Section 2 : Hazards Identification

OSHA/HCS Status : While this material is not considered hazardous by the OHSA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification : Not classified

GHS Label Element

Signal Word : No signal word

Hazard Statement : No known significant effects or critical hazards

Precautionary Statements

General : Read Safety Data Sheet before use. Keep out of reach of children.

Prevention : Not applicable.

Response : Not applicable.

Storage : Not applicable.

Disposal : Not applicable.

Hazard Not Otherwise Classified : None known

Section 3: Ingredients and composition of product

The greatest part of the projected dust during the work comes from the work piece and not from the product.

Hazardous Ingredients :

<table>
<thead>
<tr>
<th>Ingredient Name</th>
<th>CAS Number</th>
<th>Concentration (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meg</td>
<td>107-21-1</td>
<td>1%</td>
</tr>
<tr>
<td>Calcite (CaCO₃)</td>
<td>1317-65-3</td>
<td>10-13%</td>
</tr>
<tr>
<td>Cryolite</td>
<td>237-410-6</td>
<td>1-8%</td>
</tr>
</tbody>
</table>

Any concentration shown as a range is to protect confidentiality or is due to a batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.
Section 4: First Aid Measures

Description of necessary first aid measures

**Inhalation**: Move victim to fresh air. If the victim still feels unwell, consult a physician.

**Skin Contact**: Wash gently and thoroughly with lukewarm, flowing water and non-abrasive soap for 5 minutes. If signs/symptoms develop, consult a physician.

**Eyes Contact**: Flush the contaminated eye(s) with large amounts of clean water for 5 minutes while holding the eyelid(s) open. Do not remove embedded objects. Continue rinsing. Consult physician if necessary.

**Ingestion**: Not applicable

**Others**: Treat scrapes or cuts by cleaning wound. Apply sterile dressing.

Most important symptoms and effects, both acute and delayed

**Potential acute health effects**

**Inhalation**: No known significant effects or critical hazards

**Skin Contact**: No known significant effects or critical hazards

**Eyes Contact**: No known significant effects or critical hazards

**Ingestion**: No known significant effects or critical hazards

**Over-exposure signs/symptoms**

**Inhalation**: No known significant effects or critical hazards

**Skin Contact**: No known significant effects or critical hazards

**Eyes Contact**: No known significant effects or critical hazards

**Ingestion**: No known significant effects or critical hazards

**Indication of any immediate medical attention and special treatment needed**

None

See toxicological information (Section 11)
Section 5: Fire-Fighting Measures

**Extinguish Media**

**Suitable extinguish Media** : Water, CO₂ or chemical

**Unsuitable extinguish Media** : None Known

**Hazardous thermal decomposition products:**

During combustion, toxic fumes may occur, use protective equipment. Decomposition products may include the following material:

**Substance**: Carbon monoxide and Carbon Dioxide

**Special protective actions for fire-fighter:**

No special measures are required.

Section 6: Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel** : Not applicable

**For emergency responders** : Not applicable

**Environmental precautions** : Not applicable

**Methods and materials for containment and cleaning up**

Not applicable

Section 7: Handling and Storage

**Precautions for safe handling** : Follow safety standards for grinding (ANSI B11.09-2010)

**Precautions for safe storage** : There is no special storage requirement
Section 8: Exposure Control & Personal Protection

Control parameters

Occupational exposure limit

The following table presents the limit for air contaminant from OSHA 1910-Z-1 Table.

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Limit value (mg/m³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aluminium Oxide</td>
<td>15</td>
</tr>
<tr>
<td>Zirconium Dioxide</td>
<td>5</td>
</tr>
<tr>
<td>Cryolite</td>
<td>2.5</td>
</tr>
</tbody>
</table>

Appropriate engineer control: General ventilation is adequate to evacuate the dust from the working area. With good ventilation, the exposure of every ingredient should be below the limit. Make sure all the equipment is in good condition.

Environment exposure control: Not applicable

Individual Personal Protection

Eyes Protection: Wear protective goggles with safe shields.
Hand Protection: Wear Gloves.
Skin Protection: Wear long clothes. Smock is recommended.
Respiratory Protection: Use of a protective half or full face mask.
Hearing Protection: Ear protection is recommended.
Section 9: Physical & Chemical Properties

**Appearance**

**Physical state** : Solid

**Appearance** : Clear

**Odour** : Not available

**Boiling Point** : Not available

**Freezing Point** : Not available

**Specific Gravity** : $> 1 \text{ g/cm}^3$

**pH** : Not available

**Vapour Pressure** : Not available

**Evaporation** : Not available

**Flashpoint** : Not available

**Auto ignition temperature** : Not available

**Sensitivity to mechanical** : Not available

Section 10: Stability & Reactivity

**Reactivity** : None known

**Chemical Stability** : This product is stable

**Possibility to Hazardous Reaction** : None known

**Conditions to avoid** : None known

**Incompatible Material** : None known

**Hazardous decomposition products:**

Under normal conditions of use, hazardous decomposition products should not be produced.
Section 11: Toxicology

Information on toxicological effects

Acute Toxicity: No known significant effects

Irritation/Corrosion: Uncontrolled dust can affect eyes and respiration.

Sensitization: No known significant effects

Carcinogenicity: No known significant effects

Reproductive Toxicity: No known significant effects

Specific target organ toxicity - Single exposure: No known significant effects

Specific target organ toxicity - Repeated exposure: No known significant effects

Aspiration Hazard: No known significant effects

Information on the likely routes of exposure:

Inhalation, Skin contact, Eyes contact, Ingestion

Potential acute health effects

Inhalation: No known significant effects or critical hazards

Skin Contact: No known significant effects or critical hazards

Eyes Contact: No known significant effects or critical hazards

Ingestion: No known significant effects or critical hazards

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation: No known significant effects or critical hazards

Skin Contact: No known significant effects or critical hazards

Eyes Contact: No known significant effects or critical hazards

Ingestion: No known significant effects or critical hazards

Short term exposure

Potential immediate effect: No known significant effects or critical hazards

Potential delayed effect: No known significant effects or critical hazards
Long term exposure

Potential immediate effect: No known significant effects or critical hazards

Potential delayed effect: No known significant effects or critical hazards

Potential Chronic Health Effects

General: No known significant effects or critical hazards
Carcinogenicity: No known significant effects or critical hazards
Mutagenicity: No known significant effects or critical hazards
Teratogenicity: No known significant effects or critical hazards
Developmental Effects: No known significant effects or critical hazards
Fertility Effects: No known significant effects or critical hazards

Section 12: Ecological Information

Toxicity

Aquatic Toxicity: No known significant effects or critical hazards.

Persistence and degradability: No known significant effects or critical hazards.

Bioaccumulation potential: No known significant effects or critical hazards.

Mobility in soil: No known significant effects or critical hazards.

Other adverse effects: No known significant effects or critical hazards.

Section 13: Disposal Considerations

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

EPA Hazardous Waste Number (RCRA): Not regulated

Special precautions for user: None

Section 15: Regulatory Information

US Federal Regulations: Contact Walter Surface Technologies for more information.

State Regulations: Contact Walter Surface Technologies for more information.

⚠ WARNING: This product can expose you to chemicals including Formaldehyde, which are known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Chemical Inventories: This product is defined by TSCA regulations and is exempt from TSCA Inventory listing requirements.

International Regulations: Contact Walter Surface Technologies for more information.

This SDS has been prepared to meet the U.S OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Section 16: Other Information
History
